

Dear Future Students of FTS,

Hello! My name is Thomas Jack Mani and I am 8. I am in third grade with Mrs. Rainaldi, Mrs. Watkinson, and Miss Bundy. Mrs. Rainaldi is caring and always smiling. She makes learning fun while making things in the classroom. My favorite projects are the volcano and flower planting. Mrs. Watkinson is a great language arts teacher and makes this subject easier to learn. She has great rewards. Miss Bundy really cares. She makes learning exciting with fun games. She should get a raise!

Franklin Township School has a very cool mascot. The king of beasts, the lion. His name is Rory and his symbol is a paw print. The school colors are blue and yellow that became green when blended together. FTS is trying to be green by reducing, reusing and recycling. My mom, sister and I made the front school bulletin board with a nature scene out of plastic bottle caps that we collected and glued to cardboard! We hope for a greener earth forever!

For you future Franklin Township students, I hope your years are fun and exciting! I hope you still have books to read and paper and pencils to use. I hope we have recycled enough for you all.

I would like to see the school teach farming and conservation for the next generations.

Some other cool changes that I would like to suggest would be for a swimming pool and a track to run on. I also hope the future students everywhere have more time to play outside.

Sincerely,

Thomas Jack Mani
