Signs of Spring

Whoosh, Whoosh, the season I feel closest to at Franklin Township is spring. The wind was blowing on a cool spring morning. I went out to see the wonders of spring signs. As I smelled the flowers, a brief breeze gently swept over me. I looked down to see a little bug. I picked it up and felt its tiny legs crawl on my hand. As I moved through my yard, I heard the rushing water at our creek and went to investigate. I go to see what signs of spring I can find there. I love being close to the water and seeing bugs of all kinds. I suddenly saw something move in the water. What could it be? I wandered closer as the water sprayed my face. It smelled like salt water. I looked under the rock and what I saw was a tiny crayfish. I tried to catch him but he scurried under a rock. After I saw the crayfish, I went back to my yard. The flowering trees were swaying and dropping petals all over. Some even landed in my hair. I started to sneeze as all of the pollen was in my nose and all over me.

Then I wandered into a few bushes in my side yard. I felt the grass in between my toes as I walked over. I looked to find a small pink berry in the woods. I thought to myself that it must be a raspberry. I ran inside to get a bucket. Man, do I love picking raspberries! It is so much fun. After I picked them, it was time to wash them and eat them. They were absolutely delicious—so sweet and tangy. Suddenly, it started to rain, but there was not a problem at all. I started to laugh and dance as my hair bounced up and down. It felt nice to have cool water drip down my head. When it stopped raining, I saw a double rainbow that was amazing! I went into my garage to find some chalk. As I drew, it slowly melted from the water on my hard bumpy driveway. I raced the water all the way down.

Finally, it was the end of the day. I was having so much fun that the day went by super fast! It was getting dark but the fun was not over yet. In the distance, I saw small yellow lights flashing in the dark and sparkling in the night sky. It was fireflies! Catching fireflies was the best part of the day. I loved it so much. I had caught so many but it was time to let them go. My mom told me it was time to go to bed. As I got into bed, I said to my mom that there is a whole other spring-filled day tomorrow. I cannot wait to discover more signs of spring!
